

Creating Your Party

Mission Briefing

Your Party is your key to winning the Presidency. If your Party works together, using their unique talents, you will be rewarded throughout the year, but if you can't, everyone in the Party will likely struggle, as a result. Figuring out your Party's identity is the first step towards a successful run for the Presidency, and we can't wait any longer to get our message out.

Here's what your Party needs to do:

1. **Pick a name** (this will be used throughout the campaign, so pick wisely) **(Ex. The Eagle Party)**
2. **Create a slogan (Ex. "The People's Party")**
3. **Create a Google Slide (1 slide only) that displays your Party name, slogan, an image & the names of everyone in the Party.**
4. **Share it with me when done. (This is a surefire way to attract new followers for all of you, when they know what your Party's all about!)**
