possible!

How convincing can you be?

What's something you're passionate about?

1. Pick a topic of your choice to give a speech on.
2. In a Doc, type out your speech, following the basic outline below:
 - a. Introduce your topic & what your opinion is
 - b. Share counter arguments (things that people argue against your view) & explain why they are wrong
 - c. Share your strongest arguments
 - d. Conclude your speech with some final, persuasive thoughts

Like any good argument, your speech should have as much evidence and facts as possible to convince people you are right!

Share with Mr. Armstrong when you're done, and wait to find out how persuasive you were!
