

PROBLEM-SOLVED QUEST

Level 8 Challenge

As a governor, you have gained respect of those within your state, and are starting to gain national attention for your success there. You are very close to becoming a member of the President's Cabinet, something that will give you a lot of power, and almost certainly allow you to be a presidential candidate if you choose to run in the next election.

Those in the upper levels of government cannot do it all alone, however, and often work closely with advisors that are experts in their field. This Quest, is a challenge for you as a governor to hear the voices of those that you lead, while also hoping to improve your state in the process. You will also see, that when those you lead succeed and are happy, so are you...

Here's what to do...

1. Create your very own Side Mission, that when completed, will be shared with everyone in the country. The description/directions for the Side Mission should be made in a Google Slide or in a video that I can put on my website, but the product or activity that needs to be done as part of the Side Mission is up to you.
2. After completing the directions for the Side Mission - send them my way, and I will let you know if they have been approved.
3. Once approved, you will complete the Mission yourself, earning up to 10,000 followers. Once the Side Mission is posted, you will also earn 5,000 Followers EVERY TIME someone completes the Side Mission you created!
